Important Notice

It is important to turn off the video projector and secure the equipment cabinet. Failure to turn off the projector (regardless if light is being projected) will cause the lamps to burn out. Failure to secure the cabinet may result in equipment abuse or theft. Due to budgetary constraints, replacement and repair of equipment may not be available.

Start-up Procedures

1. Press the Projector ON button on the Switcher/Equipment Selector to turn on the video projector.
2. Select the type of media equipment (source) you want to show through the projector. The following media are available in this classroom:
   - VHS Video Player (Input 2)
   - DVD Player (Input 3)
   - PC Computer (Input 5)

External devices such as laptop computers and other video/audio equipment may be connected through:
   - VGA Cable (Input 4)
   - Auxiliary Panel (Input 7)

3. Turn on the equipment and follow the instructions provided at right.

Close-down Procedures

1. Press and hold the Projector OFF button on the Switcher/Equipment Selector until the light blinks green (2 seconds) to turn off the video projector.
2. Turn off the media equipment.
3. Lock equipment cabinet.

Basic Operational Guide for Media Equipment
